Design | Construct | Manage

Great Southern Electrical was established in 2005 and is a leading high voltage electrical contractor. Great Southern Electrical are a Level 1, 2 and 3 accredited service provider, authorised by NSW Trade & Investment to carry out Contestable Works (design and construct) within the Essential Energy and Endeavour Energy networks.

With over 20 years of experience, our team of experts, engineer, build and maintain LV/HV electrical networks and provide innovative and practical solutions to the most complicated electrical challenges. With a commitment to excellence, our team are customer centric and provide superior customer service through high standards of competency, communication and quality.

We provide consulting, design, supply, maintenance and construction services for overhead and underground power for commercial, agri-business, government and developers. With our head office based in Wagga Wagga and depots covering Griffith and Ulladulla, we are ideally located to service Southern and Central Western NSW.
